Special Events Photography

You are planning for your special event, and the memories of this special day should last beyond a lifetime. The people, the setting, and the small details should be captured in a way that documents and allows others to experience or relive the event.

Special Events are different from regular portraiture in the regard that photos are also taken in an editorial context with candid and detail photographs, as well as some formal posed portraits. Examples of Special Events Photography are:

- Anniversaries
- Family Reunions
- Retirements
- Corporate Gatherings
- Concerts
- Fund-raising Events
- Sporting Events *
- Other Special Events *
